~~SECRET~~

OFFICE OF ELINT

FUNCTIONS

- Prepare the annual Agency ELINT Program
- Justify the budget requirements for Agency ELINT Projects
- Provide Headquarters management and support including tasking and technical guidance for field ELINT activities in coordination with the DD/P and the DD/S as required.
- Provide for optimum analysis of ELINT product of Agency operated and supported activities for the purposes of reporting of intelligence information, redirection of collection, and provision of operational information to Agency field activities.
- Make recommendations to the CIA SIGINT Officer concerning CIA position on ELINT policy matters.
- Provide suitably qualified ELINT personnel for tours of duty in designated ELINT positions in other CIA offices and outside organizations, as agreed.
- Assure the timely availability of the most suitable collection and analysis equipment, through a program of research and development, with due regard to the contents of similar programs in other Agencies.
- Provide for a quick reaction capability for the rapid development and limited production of high priority equipment.
- Provide operational units with guidance on ECM matters pertinent to CIA operations and as appropriate, provide ECM equipment and maintenance for such units.
- Study and make recommendations as directed on suitability of other passive or active technical intelligence collection schemes.

OFFICE OF ELINT----STAFF

MISSION & FUNCTIONS

MISSION

Perform the necessary overall planning, budgeting, evaluating and liaison activities of the Office of ELINT.

FUNCTIONS

- | | |
|--------------------------------|--|
| Requirements
& Tasking | - Review intelligence requirements for Agency ELINT collection, received from Agency components or from NSA, and provide information to the Project Officer upon which to base tasking of appropriate Agency collection and analysis facilities. |
| Evaluations | - Periodically evaluate each Project on the basis of consumer assessment of the intelligence value of its products. |
| Project review | - Periodically review the capability of Agency ELINT assets, in light of existing or anticipated requirements and in light of evaluation of the Project operation and make recommendations as to deletions, cut-backs, improvements, or the establishment of new capabilities. |
| Program | - Prepare the annual Agency ELINT Program together with advance planning for two additional years. |
| Annual Budget
Justification | - Prepare the annual budget justification of Agency ELINT Projects, and of the OEL. |
| SIGINT Officer
Support | - Determine and recommend to the SIGINT Officer the CIA position on ELINT policy matters; provide support to the SIGINT Committee and other inter-Agency policy groups; and provide policy support to the AD/EL, including establishment of optimum security and sanitization practices. |
| Liaison | - Serve as the focal point for technical and operational liaison with NSA, NRO and other organizations. |
| Production | - Provide policy review of all ELINT reporting by OEL prior to dissemination. |

~~SECRET~~

Staff (cont'd)

Personnel & Training - Provide for optimum use of personnel in CIA ELINT positions, through planned recruitment, rotation and training programs and procedures.

Career Service- Provide OEL support to the DD/R Career Service.

SECRET

OFFICE OF ELINT-----ANALYSIS DIVISION

MISSION & FUNCTIONS

MISSION

Assure the optimum analysis of the ELINT product of Agency operated and supported activities and provide these activities with appropriate technical guidance.

FUNCTIONS

- | | |
|------------------------------------|---|
| Analyzing & Reporting | - Receive, control, analyze and report on ELINT material received from CIA collection projects. |
| Technical Guidance | - Provide information on analysis of Agency ELINT materials, critiques of the quality of the intercept of these materials, and pertinent substantive intelligence for prompt technical guidance to field collection and analysis operators. |
| Operational Support | - Provide prompt ELINT information as required for support of Agency operations. |
| NSA Contingent | - Provide administrative support to Agency ELINT specialists assigned to NSA. |
| Improvement of Techniques | - Provide requirements to R&D Division for necessary improvement of analysis equipment and techniques for use in HEPC and in field analysis units. |
| Equipment Accounting & Maintenance | - Provide inventory control and technical maintenance of analysis equipment in HEPC. |
| Reference File | - Maintain all source reference files necessary to accomplish the mission. |
| NSA Liaison | - Coordinate with NSA production of ELINT reports for dissemination outside CIA. |
| Training | - Establish requirements for ELINT analyst training. |

OFFICE OF ELINT-----OPERATIONS DIVISION

MISSION & FUNCTIONS

MISSION

To provide technical control and support to Agency operated or supported ELINT activities.

FUNCTIONS

- | | |
|-----------------------------------|--|
| Project Officer | - Provide close Headquarters support for CIA ELINT field activities through a system of Project Officers, coordinating as required with other units of OEL, DD/R and with FI/D and Area Desks in DD/P. |
| Technical Control | - Exercise technical control of CIA ELINT operations to ensure use of optimum technical equipment and procedures required in the execution of ELINT collection tasks. As part of technical control, the Operations Division shall facilitate the prompt provision of technical guidance to ELINT and related COMINT collection operations engaged in or supported by the Agency. |
| Logistics Support | - In coordination with the Office of Logistics provide logistic support to the field operations. |
| Project state of Readiness | - Maintain continuous review of status of field projects, so as to advise Staff on capability of meeting tasking and to advise R&D Division promptly concerning need for development and procurement of equipment. |
| Project funds | - Monitor expenditures of budgeted funds for optimum utilization. |
| Personnel Actions | - Plan for assignment and reassignment of personnel to field operations, through the appropriate DD/P Area Divisions. |
| Visits | - Make arrangements for visits to field installations. |
| Personnel Planning | - Make recommendations to Staff concerning future personnel requirements at field operations. |
| Situation Room | - Maintain a Situation Room, in close coordination with HEPC, for maintenance of complete information on technical and operational status of projects, tasking, and requirements. |

SECRET

Operations Division (cont'd)

Training

- Provide suitable training for intercept operators and analysts, in coordination with the Analysis Division.

OFFICE OF ELINT-- --RESEARCH & DEVELOPMENT DIVISION

MISSION & FUNCTIONS

MISSION

Assure that optimum technical equipment for collection and analysis is available for Agency operated or supported ELINT activities.

FUNCTIONS

- | | |
|----------------------------------|--|
| Annual R&D Program | - Plan annual Agency ELINT and COMINT equipment R&D program, and prepare the budget therefor. |
| R&D Projects | - Develop, test and evaluate, either in-house or through external contract, specialized Agency ELINT and COMINT equipment. |
| Equipment Procurement | - Produce or, in coordination with OL, contract for production of specialized Agency ELINT and COMINT equipment and systems. |
| ORC | - Develop a quick reaction capability for the rapid development and limited production of high priority equipment. |
| Installation | - Perform or arrange for the installation of ELINT equipment for use in Agency projects as required. |
| Stock | - Maintain or arrange for ready supply of common items for quick response to new requirements on Agency projects. |
| Military Covert SIGINT Equipment | - In coordination with DD/P, cooperate with the Military Services in the selection, design, fabrication, installation and development of operational techniques for the use of Covert ELINT and COMINT equipment. |
| Analysis Devices | - In consultation with Analysis Division, develop new analysis techniques and provide new analysis equipment made desirable by advances in the state of the art or made necessary by the use of new recording devices or techniques. |
| ECM | - Provide technical advice and guidance to operational units on ECM matters pertinent to CIA operations. As appropriate provide ECM equipment and maintenance for such units. |
| Wave Propagation | - Study and make recommendations on application of new wave propagation knowledge to ELINT and COMINT collection. |

R&D Division (cont'd)

Other Technical - Study and make recommendations as directed on suitability of other
collection sys- passive or active intelligence collection schemes
